PROFILE

Product Designer with hands-on experience across the full design spectrum: from Design Systems and feature design to user research and testing. Currently completing an apprenticeship at L'Oréal Groupe, where I own end-to-end design workflows across multiple internal products. Autonomous, adaptable, and detail-oriented, with a technical background in Computer Science that enables seamless collaboration with development teams. Actively exploring AI tools to push my design practice further. Seeking a CDI in a product-driven environment where design meets innovation and user impact is at the core.

EDUCATION

UNIVERSITY PARIS 8, VINCENNES - SAINT-DENIS	Île-de-France, France
Master 2 in Digital Media Creation	2025 - 2026
UNIVERSITY OF TECHNOLOGY OF COMPIÈGNE	Compiègne, France

EXPERIENCE

L'ORÉAL GROUPE	Île-de-France, France
UI/UX Design Apprentice	Sept 2025 - Sept 2026
Design System Scalability: Led the creation of a comprehensive Design System from scratch, building 18+ reusable components using Figma variables & tokens to streamline design-to-development handoff User-Centric Features: Designed, prototyped, and tested features for 3 internal tools including mobile apps and a website, translating user friction points into intuitive, production-ready interfaces. Design Consistency: Designed full pages integrating new Design System components, ensuring visual consistency and UI compliance Workshop Facilitation: Contributed to organizing a requirements-gathering workshop with 16 key stakeholders to understand user needs	
PURPLE BRAINS	Lebanon (Remote)
UI/UX Design Freelancer	Jan 2025
Heuristic Evaluation: Enhanced existing website by conducting heuristic evaluation, improving navigation and optimizing flows Feature Design: Designed and delivered new features in Figma, aligning with user needs and business goals.	
E.D.I.T.S.	Lebanon
Graphic Design Intern	Jan 2024 - Feb 2024
Visual Identity: Designed the logo and full visual identity of a newly launched multi-service company from scratch, translating the brand's values and offerings into a cohesive visual concept. Social Media Assets: Created social media assets to support the company's online presence and promote its services across platforms.	
DIGGRI L.L.C	Qatar (Remote)
UI/UX Design Freelancer	Nov 2023 - Jan 2024
Mobile App Design: Designed a mobile event management app from scratch, covering user flows, wireframes and high-fidelity UI, across 20+ screens prioritizing a seamless and intuitive experience, delivered on time and adopted by the client's development team. Cross-functional Collaboration: Collaborated with developers and testers to ensure design specifications were accurately implemented and aligned with user needs.
